

聖公會鄧肇堅中學2023
SKH TANG SHIU KIN
SECONDARY SCHOOL

「向著標竿直跑, 要得神在基督耶穌裏從上面召我來得的獎賞。」

腓立比書3:14

"I press on toward the goal for the prize of the upward call of God in Christ Jesus."

Philippians 3:14

School Mission

Our school, founded in the year 1962, is an Anglican Church School that fully embraces the Christian ethos. As a Christian school, Sheng Kung Hui Tang Shiu Kin Secondary School believes in honoring the innate value of every individual created by God. The school motto is HYPOMONE, the Greek word meaning "perseverance, forgiveness and tolerance", all of which are important Christian virtues that guide our students to be responsible citizens.

At the heart of this school community lies the belief that each student is unique and valuable. Based on Christian values, our school and teachers provide ample opportunities and an ideal environment to engage students in a balanced education that embraces morality, intelligence, physical development, social awareness, aesthetics and spirituality. We are dedicated to nurturing a future generation of young people who are compassionate and responsible, as well as independent thinkers.

本校於1962年創校，一直持守基督教的辦學精神，本著每位孩子被上帝創造時已擁有不能被取代的尊貴價值，效法校訓HYPOMONE的精神，以謙卑及堅忍的心，承擔社會的責任。

我們深信每一位學生都是獨特及具價值，學校和老師盡心安排不同的氛圍和經歷，讓學生參與其中，發揮潛能，透過提供全人教育，致力培育學生在德、智、體、群、美、靈各方面皆有均衡發展，日後成為富同情心、具責任感及獨立思考的新一代，回饋社會。

Principal's Message

This brochure helps you to know more about our education targets in Sheng Kung Hui Tang Shiu Kin Secondary School, a co-educational Christian school located in the Wan Chai district in Hong Kong. They include our passion for extending students' learning experiences, our dedication to nurturing future leaders, our commitment to preparing students for their future endeavours, and our devotion to creating a vibrant learning culture. You will also take a glimpse of our students' learning journeys in the coming pages.

One of the missions of a school is to help teenagers explore their interests and potential to pursue their dreams. TSK teachers encourage every student to achieve their best in all aspects of school life, including academic studies, sport, music and culture. Over half a century, our dedicated team of teachers and staff have been building as many platforms as possible to give students opportunities to shine.

Another mission of a school is to equip teenagers with the qualities to become an adult. TSK teachers are dedicated to helping our students develop their values and characters through daily life experiences. Through participating in activities on or off the campus, during lesson time or after school, students learn how to live with passion, dedication and commitment, and eventually become a better version of themselves.

As an Anglican school, it is our mission to nurture students with Christian values so that our students and graduates can have the power of discernment to make good judgements. "Your word is a lamp for my feet, a light on my path" (Psalm 119:105).

I hope you find this brochure helpful and informative. We look forward to welcoming you to TSK sometime soon.

Alan K. H. Yuen
Principal

School Objective

Walk the Talk Let Your Dreams Set Sail

The school objective this year is 'Walk the Talk Let Your Dreams Set Sail'. It is hoped that students learn to give their best in every endeavor. They are encouraged to reach for their dreams through passion and action, which shall make their life more meaningful and abundant.

坐言起行 追夢啟航

本年度的學年主題是「坐言起行 追夢啟航」，學校希望學生明白凡事要盡其在我，並且抱著一腔熱誠，付諸實行，努力達成夢想，使生命更有意義、更為豐盛。

Medium of Instruction

The medium of instruction in our school is English. All subjects are taught in English with the exception of Chinese Language, Chinese Literature, Chinese History, Life and Society, Citizenship and Social Development, Putonghua and Religious Studies.

除中國語文、中國文學、中國歷史、生活與社會、公民及社會發展、普通話及宗教科外，其餘學科均以英語作為教學語言。

School Facilities

In addition to all standard facilities, our school has:

- A Sports Complex with an indoor swimming pool, an air-conditioned gymnasium, a fitness centre and squash courts
- Interactive classrooms with advanced IT and electronic equipment that facilitates interactions between teachers and students
- A History Gallery
- A School Chapel
- TSK InnoHub
- TSK Recital Studio

本校擁有多於標準校舍的設施，其中包括：

- 體育大樓：設有恆溫游泳池、空調體育館、體能訓練室和壁球室
- 互動課室：配備完善的資訊科技設施，促進師生學習的互動
- 歷史廊
- 小聖堂
- 肇堅創意坊
- 肇堅演奏室

TSK History Gallery

When Heritage Meets Innovation

The History Gallery was renovated and reopened in 2012. The six houses of TSK in those years are represented by the six colours in the interfacing stripes across the wall. Priceless exhibits are proudly presented, like the past photos featured along the "History Corridor" and the trophies arrayed at the "Arch of Triumph". Visitors were mostly impressed by the tree ring symbol that denotes the Chinese saying, "It takes a decade to grow a tree and a century to educate a person".

肇堅歷史一宣揚承先啟後

擴建的肇堅歷史廊於二零一二年開幕，壁上的六色線條交匯，代表當年六個社的顏色，盡顯心思。歷史廊裏的展品彌足珍貴，有以昔日圖片為主題的「校史迴廊」，展示獎杯成就的「凱旋門」等，其中年輪標誌象徵「十年樹木，百年樹人」的特別意義，令觀賞者讚不絕口。

The Chapel

As a well-facilitated Christian secondary school, a chapel was installed shortly after TSK was founded. The chapel has been relocated a few times for the school's developments at different milestones. A permanent venue that is deemed most suitable for nurturing students' spiritual growth was chosen in 2012 as the school celebrated its memorable Golden Jubilee. The chapel was dedicated by the Most Reverend Paul Kwong on 11th September, 2013.

The chapel provides not only a venue for the Christian Fellowship, but also a spiritual haven that allows teachers and students quiet time of meditation, devotion and prayers, away from the hustle and bustle of everyday life.

The chapel features six stained glass windows that narrate six events in the life of Jesus, including "Let the Little Ones Come to Me", "Five Loaves and Two Fish", "Jesus Heals a Lame", "Jesus Changes Water to Wine", "Love Your Neighbour as Yourself" and "The Transfiguration". The six pieces of stained glass paintings and other decorations in the chapel create a sacred and peaceful space that welcomes every student, alumnus, parent or teacher who enters the chapel to reach God and to have their strength renewed.

Sports Complex

The construction of the TSK Sports Complex started in 1984 and was completed in 1986. The old complex featured an all-season heated swimming pool (G/F), two standard squash courts (1/F) and a dancing room. The gymnasium on 3/F provided a venue for regular PE lessons and sports team practice after school.

As the facilities had aged and been damaged after 28 years of use, the school started a fundraising campaign for a comprehensive maintenance and renovation project. The 8-month project was completed in 2015. Facilities, including the car park on G/F, the indoor swimming pool, the squash courts and the gymnasium, now all display a fresh new look. The dancing room on 1/F has been refurnished and is now a well-facilitated fitness center. The school was careful with the renovation materials we chose so that students can enjoy best-quality sports facilities that help keep both their body and mind strong.

Recital Studio

The Recital Studio, funded by the Quality Education Fund (QEF), has served the school as a hub for choir and orchestra rehearsals in the past two years. The studio provides a platform for our musically talented students to hone their vocal and instrumental skills, resulting in the creation of outstanding musical works.

One of the Recital Studio's key highlights is the high-quality recordings produced by our students. Under the guidance of professional instructors, our student production team have developed skills in recording and audio production. Their impressive performance has attracted invitations from esteemed organizations like the Chinese University Chorus and Alice Ho Miu Ling Nethersole Charity Foundation for recording projects.

TSK Experience/ TSK Education

We extend students' learning experience

STEM Education in TSK

The STEM education program at TSK is designed to provide students with the skills and knowledge they need to thrive in today's rapidly changing world, where technological advancements and scientific innovations are shaping our lives in unprecedented ways. To achieve this goal, a range of activities and events are organised, such as the Inter-house Drone competition, 3D printing and Python workshops, etc. Students are encouraged to think critically, solve complex problems, and collaborate with others.

Through these activities, not only do they gain hands-on experience in applying STEM concepts to solve real-world challenges, but they also become teamplayers with excellent collaboration skills. Possessing both technical expertise and team spirit, our students are prepared for achieving success in their future career paths. They shall tackle challenges ahead with confidence and resilience.

Science Education in TSK

The science education program at TSK aims to offer students ample opportunities to explore and excel in their academic pursuits. In addition to preparing students to sit the DSE exams in physics, chemistry, and biology, various platforms are introduced so that students can participate in gifted education courses, science competitions, and STEM-related events. Our goal is to foster a habit of using scientific concepts to understand and solve real-world problems in our daily lives. By encouraging our students to apply their knowledge and skills in authentic contexts, we hope to instill in them a lifelong passion for science and a deep appreciation for its role in shaping our world.

TSK Experience/ TSK Education

We extend students' learning experience

Environmental Education

In the academic year 2022-23, our students participated in various educational programmes on sustainable development.

Student Environmental Protection Ambassador (SEPA) Scheme and Green Prefect Programme organized by the Environmental Campaign Committee, Environment and Ecology Bureau and Education Bureau

Under the SEPA Scheme, students took part in different environmental training activities, including seminars, workshops, field visits, community promotion and educational activities. F.3 to F.5 SEPAs act as Green Prefects to monitor students' green habits on campus and organize a variety of environmental activities related to waste reduction and recycling, both for students and the community.

In this programme, an activity called 'Ocean Park - Every Drop Counts' was held on 29 Dec 2022. It acknowledged the importance of clean water for sustaining life.

F.2 and F.3 students watched an interactive drama entitled 'Ecological Adventures: Animals and their Place of Origin' on 29 Jun 2023. They were encouraged to protect and respect natural resources and biodiversity for sustainable ecology.

TSK Experience/ TSK Education

We extend students' learning experience

'Innovators. Social Innovation Journey' organised by Hong Kong Federation of Youth Groups

A team of five F.3 and F.4 students joined this programme from April to August 2023. Participants learned social innovation skills and considered the idea of sustainable development from multiple perspectives. They were asked to solve environmental problems through design thinking. Apart from training workshops and professional mentor consultations, a three-day field trip to Guangzhou, Shenzhen and Zhuhai was arranged from 17 to 19 July 2023. With all these inputs, they created a sustainable business proposal for changing environmental circumstances and finally won the first runner-up.

Geography Activities

In the academic year 2022-23, our students took part in various geography activities in which they learned through experience with fun. The major highlights are shown below.

'Planning Department Outreach Programme' organised by the Planning Department, HKSAR

From 22 to 23 February 2023, the programme was held to increase students' knowledge about town planning in Hong Kong through a thematic exhibition, a lively talk and computer games in the mobile van.

'Hong Kong UNESCO Global Geopark Schools Programme' organized by Agriculture, Fisheries and Conservation Department, HKSAR

Apart from the online cultural exchange sessions with students from Itoigawa, Japan, our students attended the workshop entitled 'Exploring the Wonderful World of Minerals'. Students learnt how to identify different types of minerals with hands-on practice. They also participated in field excursions to learn about the rocks and geological structures in the Hong Kong Geopark.

TSK Experience/ TSK Education

We extend students' learning experience

'Yuen Long Bypass Floodway' Guided Tour organized by the Drainage Services Department

On 27 January 2023, students had the opportunity to visit San Tin Stormwater Pumping Station and look at the inflatable dam and mangroves of Kam Tin River.

This tour enabled students to understand how to achieve sustainable development in large-scale flood prevention works.

Field Study Course organized by the Caritas Chan Chun Ha Field Study Centre

On 27 April 2022, F.4-5 students took part in the field study course entitled 'Drifting Classroom'. Participants collected field data in the river environment in Mui Wo and interpreted the data.

Inter-class Knowledge Quiz on Geography of China Competition organized by Geography Society

Three representatives from each of the F.1-3 classes joined this competition in the formats of online quizzes, online jigsaw puzzles and Chinese riddles on 20 April 2023 after self-directed learning of various topics on the geography of China.

Using Geographic Information System (GIS) for STEM Education in Geography

On 20 December 2022, students were arranged to pay a visit to Geospatial Lab for hands-on practice in using GIS. Subsequently, some of F.3 and F.4 students were selected to receive further training. They joined two different GIS competitions in which ArcGIS StoryMaps were created, and achieved promising results.

TSK Experience/ TSK Education

We extend students' learning experience

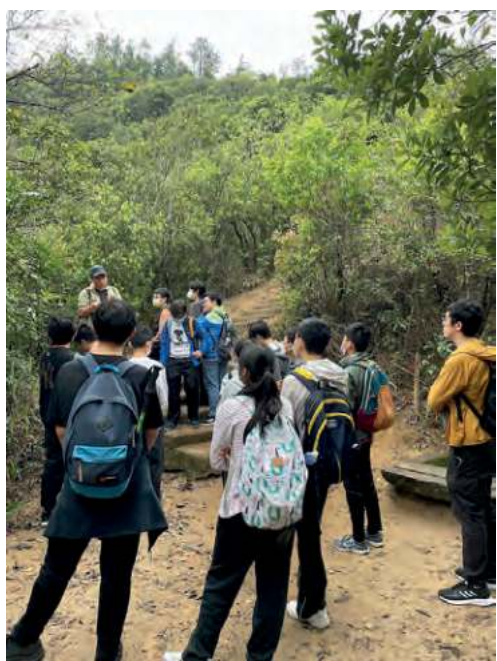

灣仔區「文學散步」

作家劉偉成擔任導師，以「愛羣的漣漪盪漾」為主題，帶領高中修讀中國文學科同學遊走灣仔，通過文學作品、歷史掌故引導大家張開感官，從社區中尋找寫作靈感。

獅躍鼓鳴賀新歲

中文學會及肇堅獅藝學會於一月十七日午膳時在操場舉辦舞獅表演，醒獅隊傾力演出，鑼鼓聲響徹校園，觀賞者對他們的精湛演出均讚賞不已。

Field Trip to Shing Mun War Relics Trail

A group of F.1 to F.5 students visited the Shing Mun War Relics Trail in a guided tour organized by the History Society. Led by Mr. Rusty Tsoi Yiu-Lun, a renowned scholar in local military history, participants explored the tunnels and military facilities built by the British Army in the 1930s. They traced along the intricate tunnel network to understand how the Japanese troops occupied Shing Mun Redoubt in 1941. The tour enriched students' understanding of the local history and inspired them to think how similar "forgotten" local historical sites can be better preserved.

TSK Experience/ TSK Education

We extend students' learning experience

Visiting Haw Par Mansion

Supported by the Life-wide Learning Grant, 20 students from F.3 to F.5 visited Haw Par Mansion on 20 Oct 2022.

Curators from the graded historic building led the participants to explore its architectural features and to understand how people lived during the 1930s when the mansion was built.

During the visit, our students showed immense interest and curiosity despite the COVID restrictions. They asked insightful questions related to the historical contexts and the architecture of the building. Through this outing, our students learned more about the histories of Hong Kong, overseas Chinese, and modern architecture.

English Carnival

After a 3-year hiatus, the face-to-face English Carnival was finally back this year, with students showcasing their creativity and language skills while introducing different world cultures at the English Carnival held on 5 May 2023.

A total of 17 creative and challenging English game booths were set up by F.3 to F.5 students and the English Society. Apart from game booths, a popcorn booth was also set up outside the school hall for those F.1 and F.2 students who collected enough stamps and stickers from visiting the game booths, and speaking to teachers and student English ambassadors respectively. The carnival gave all participants a whole new experience of learning English in a fun and educational way, with some booth organizers using the least amount of material and adhering to the principle of being environmentally-friendly, which is one of the core values enshrined here at TSK.

TSK Experience/ TSK Education

We extend students' learning experience

Inter-house Quiz Competition – a showcase of knowledge

The Inter-House Quiz Competition finally returned in a face-to-face format on 12 May 2023. The four houses created a high-spirited atmosphere with energetic chants. Bancroft emerged as the Champion after the intense competition with questions ranging from trivial knowledge to current affairs.

A new Q&A session was introduced this year, adding an extra layer of excitement. A game session involving collaboration between teachers and students was also included, enhancing the sense of unity within each house.

The Quiz was a great success, with students enjoying the opportunity to come together and showcase their knowledge.

5D Tsang Wai Hao

「校園 KOL」訓練計劃

今年二月至五月舉行的「校園 KOL」訓練計劃已告一段落，活動目的是為了增加同學對美食的認識和撰寫食評的要求。內容包括「訪名廚·撰食評」、「遊社區·攝秘境·尋故事」、「網頁設計達人」工作坊等。參加的同學來自不同級別，經過導師悉心的指導，同學們學會如何撰寫食評、拍攝和剪輯影片等多種技巧。其中在街上克服恐懼的採訪以及在店內令人垂涎三尺的試吃，都令我們留下深刻的印象。

2022/23 Statistical Project Competition for Secondary School Students

To nurture our students and prepare them for their future roles in society, the Mathematics Department actively promotes mathematical education and provides opportunities for our students to showcase their talents. This year, two groups of junior form students participated in the 2022/23 Statistical Project Competition for Secondary School Students, organized by the Education Bureau and the Hong Kong Statistical Society. The competition aimed to broaden students' horizons on the use of statistics and encourage them to apply their mathematical skills in real-world contexts. Our students' concerted efforts in analyzing related data and presenting their findings in posters were well-recognized. Among the 237 projects received, our two groups of students were awarded the third prize and the distinguished prize respectively.

Students visiting AFS

On 25 March 2023, ten F.3 students joined AFS Intercultural Fair at S.W.C.S Chan Pak Sha School. It was a great opportunity for local secondary school students to learn about different cultures. Classrooms were hosted by exchange students from Brazil, Spain, France, Germany, Hungary, Italy, Japan and Poland. They shared the culture of their home country in English through interesting activities such as dancing, singing and games.

I loved seeing all the different facilities the school provides.
(3A Bruton Mya)

I enjoyed the room for us to experience different cultures. Although time was short, it was fun.
(3A Miguel Jullianna Megan Solano)

I got to know the cultural customs of different countries. It was very pleasant to communicate with different people.
(3B Cheung Shu Yuk)

I could learn quite a lot about the cultures around the world.
(3B Woo Tsz Ching)

Enjoying the vibe with people from different countries, I felt amazingly connected with the foreign students.
(3C Huang Hei Ue Victoria)

I was given the chance to learn about different cultures.
(3D Ng Dick Hei)

Students were so nice. They kept sharing their experiences or the cultures of their countries.
(3D Tsai Sheung Ching)

I was glad and I enjoyed knowing more about different cultures in the AFS activity.
(3D Wu Wai Lam)

It was absolutely amazing as the images of learning about different world cultures in their nation-based decorations still conjures up in my mind.
(3D Yip Yat Ju Isaac)

The visit was very enjoyable and I would highly recommend the event to others.
(3D Kan Tsz Yau)

TSK Experience/ TSK Education

We nurture future leaders

Leadership Training

TSK emphasizes our commitment to a well-rounded education. The school conducts a range of activities throughout the year to foster students' leadership qualities, including the prefect camp and the leadership training camp. It is hoped that students develop the necessary skills and character traits to become effective leaders through the comprehensive learning experience. A spirit of cooperation is fostered as students sharpen their skills in teams.

The activities also further develop their problem-solving abilities.

During the recent prefect camp at Y.W.C.A. Sydney Leong Holiday Lodge in Mui Wo, in groups the prefects were given diverse challenges, including scaling a large boulder through collaboration. To complete the tasks successfully, members had to communicate effectively and think critically. They had to deploy a wide range of abilities indispensable for a strong leader. At the end of each task, the prefects shared their individual experience before they received constructive feedback and words of encouragement from Y.W.C.A mentors.

肇堅飛躍領袖訓練計劃

去年有一位家長出席中一入學須知講座，在中段休息時間過來問擔任工作人員的我：「你認為這是一所好學校嗎？」我回答道：「這所學校給予學生很多機會，讓我們能夠鍛鍊及學習不同的技能。這是一所非常好的學校！」而正因為學校提供的機會，我才可以拿到課外活動優秀學生表揚獎。

在五年中學的生涯中，學校各種各樣的活動給予我無數嘗試的機會，而「肇堅飛躍領袖訓練計劃」能提供工作坊、歷奇訓練等，提升我的領導才能。我會緊握這些機會，從而成為一個領導者。

5C 盧浚科

服務學習計劃

本校中四學生透過服務學習計劃，參與了一系列社會服務，包括：十字路會義工日、狗場探訪及服務日、中銀學界體育志願計劃、清潔沙灘、希望盒子 (Box of Hope)、賣旗、聖約翰座堂 Michaelmas Fair 賣物會、探訪老人中心及獨居老人、「麵包俠」等活動。計劃既能培養學生的同理心，亦讓他們對社會的各項需要有更深切的體會，參與的同學均獲益良多。

TSK Experience/ TSK Education

We prepare students for their future endeavours

Careers and Life Planning

Support for F.3 students – workshops, sharing and book fair

Deploying assessment tools suitable for the age group, social workers from St. James' Settlement conducted a class-based 1.5-hour session in which students learnt about their personalities and working styles during the OLE Day in October.

In April, F.5 students shared about their experience during a 35-minute Form Teacher Period: how they made their choices in F.3 and how they have been handling the elective subjects. Borrowing the idea of university info days, booths were set up during lunch time. Representatives from each elective subject (including both senior form students and graduates) displayed their learning materials so that F.3 students could look at the authentic texts and ask questions in a casual and welcoming setting.

Year-round programmes in partnership with businesses and NGO

Senior form students took part in a number of careers and life planning programmes conducted by our business partners or NGO.

In Towngas Career in a Nutshell, a group of F.4 and F.5 students took part in activities ranging from company visits, workshops, social service experience and a school mission. Highlights included farming at Towngas' charity farm and a whole-day star training. In the star training, students completed a number of exciting tasks and visited different departments including the warehouse at the headquarters. The day was concluded by a table-manner workshop at Neptune's Restaurant at Ocean Park.

Another group of F.5 students took part in Life Buddies – Deloitte Pass the Torch Student Mentoring Programme. Participants were matched with mentors working at Deloitte while they took part in activities such as company visit, job-tasting, design-thinking workshops, etc.

This year, organized by Caritas, our F.3-5 NCS students took part in a series of life-planning education activities that included workshops, company visits and job-shadowing.

TSK Experience/ TSK Education

We prepare students for their future endeavours

Other company visits

Facilitated by ANIWARE Co. Ltd, a group of F.5 and F.6 students visited the Vet Centre in September to learn about the most advanced medical equipment for animal health care and shadow a professional vet during his consultation sessions.

Organised by Great Eagle Group, a group of F.3 students visited CORDIS Hotel to understand the daily operations of a 5-star hotel, as well as the prospect of the hotel and tourism industry.

Career Live and Careers Expo

Two whole-form activities were carried out to help F.5 students shape their career aspiration.

In Career Live, students immersed themselves in a simulated work environment, wearing work uniforms and using real tools and equipment, to become employees in various industries and strive to meet job requirements.

Before the kick-off ceremony of our school's Mentorship Programme, we worked together with St. James' Settlement to host the Careers Expo, which was a form of human library. Guests from various industries were invited, including the less conventional ones such as YouTube influencer and esports. Students learned from the speakers their life experiences, work attitude and professional knowledge.

Support for F.6 students – talk, workshops, alumni sharing and careers counselling

To help F.6 students make sensible and well-informed choices for their future study plans, various talks, workshops, mock university interviews and alumni sharing sessions were conducted.

In addition, students are assigned a careers counselling teacher since F.5. Together with the help of social workers and form teachers, we hope to understand the needs and preferences of a young person in search of their future path so as to offer suitable and timely careers support and guidance.

TSK Experience/ TSK Education

We create a vibrant learning culture

Senior Forms School Picnic

Our School Picnic was successfully held on 26 Oct 2022. 339 Senior form students spent the day at Hong Kong Disneyland. F.4 students participated in the Disney Youth Education Series such as Disney's World of Physics and Disney's Foundation for Career Success while others enjoyed their park adventure program. The Picnic Day encouraged students to challenge their limits, which echoes our annual school objective.

While amidst the pandemic, class unity and the bond between students and teachers were strengthened on this joyful occasion as each class proudly dressed in their unique class tees.

Adventure-based Activity Day for Junior Forms

Students' social life had been hugely affected by a long period of social distancing due to the pandemic. This year, the school spared no effort to turn the long-awaited school picnic into an active learning adventure program.

The adventure program for junior form students allowed them to plan, discuss and interact with their classmates to complete a variety of group tasks. Led by an adventure programme coach and a teacher, students were deeply engaged and demonstrated wonderful teamwork.

The adventure program successfully enhanced a great sense of belonging among students not only to their group and class, but also to the entire form and the school.

飛「粵」大戲台 粵劇工作坊

在粵劇名伶的悉心指導下，學生從音樂、文學、形體舞蹈各方面出發，認識粵劇「唱、做、唸、打」的表演元素。同學們更粉墨登場，化身粵劇舞台上的英雄豪傑，演出一折《穆桂英招親》，提升了同學對中國文化的認識及興趣。

公民與社會發展科內地考察

二零二三年五月八日，全校中五級同學及十三位老師一起回內地考察，目的地是「愛飛客航空科普教育基地」。透過參觀航空基地及珠海市、與內地人民交流及各項有趣的學習活動，同學能夠更了解祖國航天科技的發展和不同方面的成就，引以為傲，加強他們對國民身份的認同。

Diamond Jubilee Celebrations

To celebrate our school's 60th anniversary, various celebration events were organised.

The Diamond Jubilee
Invitation Sports Competition
on 26 & 27 Jul 2022

The End-of-Term Service cum
Diamond Jubilee Kick-off Ceremony
on 3 Aug 2022

The Diamond Jubilee Thanksgiving Service
on 15 Sep 2022

The F.1 Admission Talk cum Open Day
on 12 Nov 2022

The Diamond Jubilee Home-coming Day for
Alumni and Ex-teachers on 8 Jan 2023

The Diamond Jubilee Speech Day
on 13 Jan 2023

Diamond Jubilee Celebrations

Diamond Jubilee Musical

The Diamond Jubilee Walkathon from mid-January to late February 2023

The Diamond Jubilee Celebration Dinner on 8 Jul 2023

Diamond Jubilee Musical

To celebrate our 60th anniversary, the school is honoured to present our third musical, Fame the Musical JR, which will be staged on 29 Feb and 1 Mar 2024 at Shiu Kin Hall. The musical depicts the story of a diverse group of students attending a high school of performing arts.

Recruitments and auditions for the musical were carried out in March 2023. Over a hundred students from F.1 to F.4 signed up to help in the production of the musical, both as cast and crew. A series of training workshops for actors and actresses have been held since May. All potential actors and actresses pitched in. They showed enjoyment and enthusiasm in their participation at the rehearsals for the musical.

Sharing by some of our recently graduated alumni and exchange student

蔡樂軒 2022年畢業生

大家好!我是蔡樂軒，現就讀於中文大學社會工作學系。在疫情期間，我在TSK度過了三年不平凡的高中生活，深深體會到TSK是一間充滿愛的學校。即使不能上實體課，老師仍不斷支援我們學習和情緒上的需要，同學之間也互相關懷和鼓勵，我會好好珍惜在這裡遇到的每一位。此外，TSK也和社區有緊密連繫，成為VOT的一員令我可以透過參與不同的義工活動，服務社會，擴闊視野，學會謙虛。最後，希望各位同學繼續享受愉快的中學生活，同時關心社會！

Jacky Szeto Chi Yin

Graduate of 2022, now studying at HKU Medicine

Even after I started university, I still treasure my invaluable secondary school life at TSK. Being friendly and responsible, TSK teachers are committed to building up an intriguing and interactive atmosphere in class. We often eat out with our teachers, throughout these years even until now. They give us advice as we pursue our future career paths. Thanks to their dedicated teaching, students at TSK continue to strive for excellence and surpass our own academic achievements.

The time of studying, playing, and striving for excellence with our peers is truly unforgettable. Without the support from my friends, I would not have become a medical student. We are also indebted to the opportunities given to us by teachers and the principal. My secondary school learning experience was greatly enriched by duties such as the Head Prefect and Campus TV. Through serving, I was able to hone my skills for future studies.

TSK is not only a place for studying, but also a place for establishing treasurable friendships and student-teacher relationships. The TSK family constitutes a memorable and irreplaceable part of my life.

Sharing by some of our recently graduated alumni and exchange student

Laura Chaumond-Zoellin **Exchange student 2022-23**

Hello! My name is Laura. I am an exchange student from France at TSK. Coming to Hong Kong has been one of the best experiences of my life, and attending school at TSK has only made my time here even more enjoyable.

I am really grateful to all the students and teachers, as well as Principal Yuen, for welcoming me with open arms. Learning in this school with everyone has given me amazing memories. I will always remember all the school events where students worked as a team to compete. I could observe friendship and respect among students at each sport and inter-house competition. Additionally, I participated in a few activities that allowed me to learn more about the Chinese culture, such as a Chinese opera workshop and a Chinese cookery class. I really enjoyed them as they allowed me to learn interactively. I also appreciated all the school trips, like the picnic at Disneyland. It's the kind of activity that is unheard of in my French school.

The main thing that contributes to making my experience as great as it has been is the kindness of the teachers and everyone at school. The teachers care about every student, and I find it easy communicating with them. I am really grateful to the teachers, as well as all my classmates. Together, we held some activities for the school and we hung out together as friends do. I had a really wonderful time with them. TSK is like a big family to me now.

Finally, this school has taught me how to improve myself. Back in France, I used to be too shy to speak in front of my class, let alone a school hall full of teachers and students. Coming here taught me how to express myself freely and confidently. This is how I have lived out the school objective this year: 'Don't limit your challenges. Challenge your limits'.

For all these things and more –

Thank you, TSK.
